

MARIANA LEÃO

BSc Computer Science Student

I am a determined student with good communication skills looking forward to improving myself by accomplishing different work-related experiences. I frequently seek feedback and different opinions when working on a project. I am fluent in English, both written and spoken. Some of my interests include learning different languages, video games and traveling.

PROJECTS

HTML5 LEARNING WEBSITE

I developed this project during my foundation year in Information Technology. This project allowed me to have a better understanding of HTML5 and CSS while creating my own website.

MAKEBLOCK MBOT RANGER

During my first semester at Coventry University I had the opportunity to have an STEM educational robot, the Makeblock mBot Ranger. It was a very fun and interactive way of getting started with programming.

PYTHON TELEGRAM CHAT BOT

This was my first group project at Coventry University. The bot talk, send the user the weather, which was the feature that I did by using the Open Weather Map API for weather requests. This project allowed me better team working skills as well as time management skills and increased significantly my python knowledge.

C++ Text-based game

My university second-semester group project is a text-based game. Currently, my group is developing a roguelike game. This project is the one that I am enjoying the most since I am interested in developing games.

C++ Text-based game

I am currently developing a text-based game similar to Zork. It is my first independent project and it is a great way to improve my programming skills.

SKILLS

Web development:

HTML5/CSS 

Software development:

Python 

C++ 

Java 

Extra Tools:

Adobe Photoshop

Adobe Illustrator

Camtasia Studio

Microsoft Access

SOFT SKILLS

Hardworking

Team working

Time management

Problem Solving

Creativity

LANGUAGES

Portuguese - native speaker

English - fluent both written and spoken

Korean - beginner

French - beginner

EDUCATION

High School of Tondela

2015 - 2017

SCIENCE AND TECHNOLOGY

Tondela, Portugal
